

2020 OEDS Report Data

COMPLETION AND PLACEMENT INFORMATION

Placement is determined if the graduate declares himself or herself as a self-employed or freelance make-up artist, or secures traditional type employment, where knowledge of make-up artistry is required. Due to the nature of make-up artistry, most graduates of our school, placed in the field, will not work a "typical" work week of 30-40 hours. Work is obtained through independent jobs in the film, television, fashion and social industries. Graduates collect their wage and secure employment in a number of positions from these areas; these graduates are considered self-employed or as a freelancer and have an employment mix. We confirm a graduate's self-employment status through his or her affirmation of self-employment or freelance work and by collecting one or more forms of verification: employer statement, business cards, resume, marketing materials, call sheets, etc... The number of hours that these graduates work per week can vary depending on the nature of the project that they are working on. cannot substantially verify their regular hours of employment. Graduates who secure traditional employment are those who can verify that they have attained employment through a singular employer; jobs of this sort are mostly found in the retail industry,

skin-care professions and in salons and spas (jobs in the skin-care field or in salons and spas may require more training and a state license). It is in this field of employment that we generally find students who have secured full-time work. Information on the employers that frequently hire our students and/or the types of jobs our students receive after graduation can be obtained through our Career Services Office.
